

1250 E

The SWEEPER **1250 E** is equipped with exclusive technologies and motorizations.

The filtering system, with paper panel filter (1250 E 2B), ensure optimum results, superior to those of same range machines available on the market, for an efficient dust microfiltration.(up to 3 micron)

Note: batteries and battery charger are not included

PRODUCT SPECIFICATIONS

- Main brush with special “V” shape, allows maximum performances of debris collection.
- Dust microfiltration up to 3 micron through special panel filter
- Special flap activated from driver's seat for large debris collection.
- Special flap activated from driver's seat for large debris collection.
- Easy to use thanks to intuitive commands.
- Control panel with protected and waterproof controls, large multilingual display with hour counter. 'E' version with filter shaker activation menu and programmed service menu.
- The 1250 E 2B is equipped with an Auto start-stop
→ Deactivation and re-start of working functions simply by traction pedal.
- Waste container with removable sections
- Main brush replacement without tools.
- Filter shaker with automatic option. Intervals can be programmed through electronic board on battery versions.
- Easy access to internal compartments and to all components simply tilting top cover and removing front covers.

STANDARD EQUIPMENT

Code	Item description
3.8006.SPPV00018	"Medium" PPL side brush for 1250 E 2B and D 2B (2 pieces)
3.8006.SPPV75791	Medium PPL main brush for 1250 E 2B and D 2B
3.8006.FTDP76067	Paper panel filter for 1250 E 2B and D 2B

3.8006.SPPV00018
