TECHNICAL SPECIFICATIONS

- Due to the very low sound level of this sweeping machine and because of the combination of a central brush (V-design) and a powerful vacuum engine, we obtain a machine, which is perfectly suitable for the cleaning of carpets and floor covering in hotels, stores, showrooms, offices, ... The SWEEPER 464E model is supplied with batteries and battery charger.
- Built-in battery charger 220V; this allows reloading of the batteries at any place with sockets.
- Extensive operation panel with 2 pre-adjusted selection programmes.
- Hour counter and battery indicator.
- Debris hopper of great capacity, easily removable for manual discharge operations
- Extensive filtering surface (1m²)
- SSC: Soft Surface Cleaning system that combines sweeping know how and carpet cleaning needs
- Chassis in fully coated steel
