

# 512 E

The SWEEPER **512 E** is designed for professional use, he is also very compact and is therefore extremely suitable for fast and effective cleaning of small and medium-sized areas. This appliance is an electric version (model E).

Since the surface pressure of the main brush can be easily adjusted with LED indication, this sweeper guarantees a high level of hygiene and cleaning quality on a large number of surfaces, ranging from floor tiles to asphalt and concrete.

**Note:** The E model is supplied without batteries. (1x 12 V)

## PRODUCT SPECIFICATIONS

- Huge hopper capacity in minimum external space
- Main brush with special “V” shape, allows maximum performances of debris collection.
- Mainbrush with adjustable brush pressure
- Dust microfiltration up to 3 micron through special panel filter
- Manual filter shaker that can be activated directly from the driver position
- Debris hopper of great capacity
- Extensive running time
- Easy to use thanks to intuitive commands
- Easy to use control panel
- Designed to assure minimum noise levels
- Battery level indicator and built-in battery charger
- Filter replacement without tools
- Heavy duty chassis in fully coated steel with protective bumper to protect the sweeper when cleaning close to walls
- Panel control switches protected against water and humidity
