

750 M/E

The **750** is a walk behind sweeper the perfect help for cleaning small to medium spaces.

- Compact
- Manual or electric
- Large capacity container

Recommended for both indoor and outdoor use, it is ideal for facilities such as workshops and small to medium sized car parks.

Thanks to its compact and functional design and its large capacity container, it easily removes debris such as leaves and bottles even in tight spaces.

Available in both manual and electric versions.
