

P13 D

The **P13** vacuum cleaner is a compact and light weight vacuum cleaner which is extremely silent. The vacuum cleaner has a solid wheeled base with 4 rubber wheels (of which 2 casters) and a shock-proof plastic drum and frame. Great suction power thanks to the Amtek 2-stage high speed engine and a huge radius of action due to the 10m power cord. Manoeuvrability is improved due to the swivel attaching of the suction hose. Suitable for every surface. The vacuum cleaner is very ergonomic, thanks to its integrated storage devices for all accessories, electric cord and hose, and can also be carried with only one hand. Moreover, it is possible to work without the filter bag, thanks to the washable fleece filter basket which protects the engine. With the HEPA H12 filter cartridge (option) also suitable for allergy sensitive environments.

PRODUCT SPECIFICATIONS

- Extremely silent vacuum cleaner 73 dB(A) with performance regulator on the machine, suitable on every surface.
- Enourmous suction power up to a max vacuum pressure of 270 mbar
- Power is adjustable on the machine
