

# P30

The **P30** wet/dry vacuum cleaner is a compact and extremely silent vacuum cleaner with two wide floor tools, one for dust and one for water. The vacuum cleaner has a solid wheeled base with 4 wheels (of which 2 casters) and a shock-proof plastic drum and frame. The device offers an excellent surface performance. The vacuum cleaner is very ergonomic, thanks to its integrated storage devices for all accessories, electric cord and hose.

The built-in blow feature allows for instance to clean workbenches, but simply can also be used for drying.

The “Cyclone” water separator system, for which the patent is pending, is based on the principle of a cyclone, and here water is sprayed against the wall due to the swirl. Additional function for the **P30 WDS**. In addition, the socket switches on the vacuum automatically when a accessory device gets connected.

## PRODUCT SPECIFICATIONS

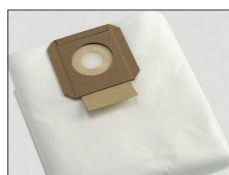

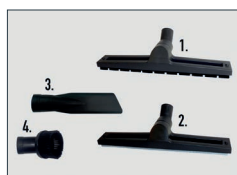

- Silent vacuum cleaner 70 dB(A)
- Upright working due to foot main switch and tube parking position
- Robust shock-proof drum and frame
- Performance regulator on the machine, suitable on every surface(patented)
- Integrated storage devices for all accessories also for electric cord and hose
- Suitable for dry vacuum cleaning when using the filter cartridge and fleece filter bag
- “Cyclone” water separator system
- **P30 WDS**: Power socket for the connection of cleaning machines or power tools.\*

## STANDARD EQUIPMENT

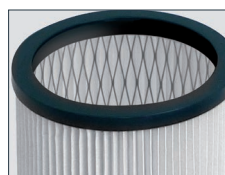

Code	Item description
3.8023.109069	2,5 m flexible suction hose with ergonomic grip Ø 38 mm
3.8023.102018	2 stainless steel suction pipes (0.5 m) - Ø 38 mm for P30 WD/ P30 WDS
3.8023.101020	1 micro fleece filter bag (per 5 pieces for additional order)
3.8023.109058	Cartridge filter for P30 WD/ P30 WDS
3.8023.109057	Cyclone separator
3.8023.109071	Floor tool Ø 38 mm
