

CT46

The **CT46** is an compact and highly manoeuvrable scrubber-drier, with a great productivity. Like the smaller versions, this CT46 is built out of materials of high quality and provided with the newest technology.

The scrubber is ideal for small and medium spaces, even when there is much furniture, because not even those spaces which are the hardest to reach pose any problem for the DiBO CT46. Furthermore, mechanical cleaning is much more efficient; the productivity is 4 times higher than with manual cleaning. This scrubber drier is only available in a battery version

Note: Not all features are available for all product types.

EXCLUSIVE TECHNOLOGIES

Eco select

SLS System

Patented transport wheel

DBL - Double battery life

UDC - Ultimate draining combo

PRODUCT SPECIFICATIONS

- Collapsible handle for easy storage
- The handle can be readjusted in height even during the cleaning → facilitates the cleaning of places which are difficult to reach
- Integrated waste water release hose for convenient emptying of the container
- The squeegee tracks automatically for optimal drying results
- The brushes and the squeegee are quickly and easily replaced without use of any tools
- Automatic stand-by position for the brush and the water supply
- CFS system for the centered distribution of the detergent
- SLS (Self Leveling System) for stable brush pressure
- EDD-system : VSqueegee designed for the highest drying and productivity results.
- The AFS ("Anti Foam System") make sure that there comes no foam by the motor.
- On board battery charger
- Yellow operator maintenance areas. Brush with maximum consumption indicator
- Motor gear box, suction motor and electric components of high quality
- Nylon standard brush with maximum consumption indicator
- Automatic brush click-on/off
- Solution adjust and closure valve
- Positioned in height discharge hose (ø 38 mm)
- Brush hook on machine side
- Control panel Brushes, solution and vacuum inserted by one unique command or singularly upon necessity.

TECHNICAL SPECIFICATIONS

• Motors

- Brush rotation: independent oil bath motor gear box
- Suction: 3 stages with stainless steel fans and shaft

• Plastic parts with long life

- Tanks: great thickness high density polyethylene
- Squeegee blades: made in Latex usable on 4 sides
- Hoses: suction and discharge made in high resistance polyurethane
- Wheels: oil resistant

• Mechanic

- Chassis: double treatment with galvanizing + die-casting
- Bearings: shielded against humidity and water seepages
- Bolts and nuts: made in stainless steel where there are water contacts

• Electric system

- Carbon brushes: easily changeable
- Solenoid valve: with Viton membrane resistant against chemical agents
- Boards: equipped with protective film against water and humidity
- Display: battery level
