STM 140/4

The **DiBO STM-M 140/4** is a mobile eco-friendly fully electric steam cleaner which can also be used as a high-pressure cleaner. Adjustable temperature and pressure.

The appliance has a wide range of uses. The multifunctional nature of this appliance with **a cleaning pressure to 140 bar** and a **steam temperature up to 145 °C** offers a complete solution along with the removal of all sorts of oils, greases, stubborn stains and food remains.

EXCLUSIVE TECHNOLOGIES

- High quality materials
- Motor with low speed
- Radial high-pressure pump

PRODUCT SPECIFICATIONS

Eco-friendly:
- Equipped with electric heating coil >>> no exhaust fumes or soot emissions.
- With low water consumption almost no soiling caused by water splashes and little water wastage.

Low-energy:
- The use of a heating coil instead of a heating boiler means this appliance is energy-saving and highly efficient.
- Heating up takes only 60-90 seconds.

Sterilisation:
- Pathogens and bacteria are eliminated from surfaces during thorough deep cleaning. Sterilisation is possible by using high temperatures with high-pressure and steam cleaning.

Steam function:
- Temperature: 145° C
- Working pressure: 45 bar
- Water throughput: 120 l/h

STANDARD EQUIPMENT

Code	Item description
3.0750.1303014	500 mm High-pressure lance
3.0750.1508024	High-pressure gun
3.0750.209876700	High-pressure hose
3.0750.1.274.560.023	Extension hose DN8 x 15 m

Subject to change

TECHNICAL SPECIFICATIONS

- Pressure controle valve to adjust the operating pressure
- Main switch ON/OFF
- Switch ON/OFF for boiler
- High-pressure and steam switch
- **Safe:**
  - Digital temperature limiter
  - Safety temperature limiter
  - Safety valve
- Temperature adjustable from 30° to 80° C
- Standard 3 x 400 V - 50 Hz
